DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-5 and 14, drawn to superantigens and methods of subtyping using the antigen.

Group II, claims 6-13 and 25-28, drawn to polynucleotides.

Group III, claim 15, drawn to a method of subtyping using the polynucleotide.

Group IV, claims 16-18, drawn to a construct.

Group V, claim 19, drawn to a pharmaceutical composition.

Group VI, claims 20-23, drawn to an antibody.

Group VII, claim 24, drawn to a kit comprising an antibody.

Group VIII, claim 29, drawn to a kit comprising a nucleic acid molecule.

Group IX, claim 30, drawn to a method of diagnosing disease.

The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I

Art Unit: 1645

lacks novelty under PCT Article 33(2) as being anticipated by Goshorn et al 1998 (Infection and Immunity, 1998, 56/9:2518-2820), which discloses a superantigen having the amino acid sequence of SPE-J, SEQ ID NO:8. Group I is the main invention in this application and it lacks novelty, therefore the other claims are not so linked by a special technical feature within the meaning of PCT Rule 13.2 so as to form a single inventive concept.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Group I: Applicants should elect one superantigen (polypeptide) and its corresponding SEQ ID NO.

Group II: Applicants should elect one superantigen (polynucleotide) and its corresponding SEQ ID NO.

Group VI: Applicants should elect one antibody.

Group VII: Applicants should elect one kit containing one antibody to one superantigen.

Group VIII: Applicants should elect one kit containing one nucleic acid molecule to one superantigen.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or

Art Unit: 1645

that all claims are generic is considered non-responsive unless accompanied by an election.

Page 4

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner: see above.

The following claim(s) are generic: no claim is generic.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: see above.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
